TABLE I

*AREA, HOUSES AND POPULATION*

This Table shows for each district and the State of Manipur the area, the number of towns and villages, the number of occupied houses, and the total urban and rural population, male and female. The districts are arranged in this and other tables in the order prescribed by Government.

The total areas of the Province, of British Territory and of Manipur are shown as in the tables of 1911. These represent surveyed areas. The real area of Assam is somewhat greater, but as there are no defined outer boundaries to the Sadiya and Balipara Frontier Tracts, and certain areas added to the Naga Hills and Lakhimpur districts have not been surveyed, only the known settled areas have been shown in column 2 against those districts.

Under orders of Government the areas of districts have been adjusted for inter-district transfers in consultation with the Provincial Director of Surveys and District Officers.

For the purpose of column 3 (number of towns) cantonments have been treated as forming parts of the Municipalities which they adjoin.

NOTE.—Similar statistics for areas smaller than districts are contained in Provincial Table I which is printed at the end of this Imperial Table.

TABLE I.—AREA, HOUSES AND POPULATION

TABLE II

VARIATION IN POPULATION SINCE 1872

1 The figures for 1911 and earlier years differ in several cases from those shown in the old Census Reports

This is due to subsequent changes of jurisdiction or addition of new areas. The effect of these changes on the population of the districts concerned has been calculated and the figures adjusted accordingly

2 The following are the districts affected by transfer of areas —

*Sylhet* —A small area transferred from Tippera, Bengal

*Goalpara, Kamrup, Nowgong, Sibsagar, Lakhimpur, Naga Hills* —Some inter-district transfers

*Sadiya and Balipara Front or Tracts* —Districts newly formed by transfer of areas from Lakhimpur and Darrang districts. The populations shown for years previous to 1921 have been calculated from those of the transferred parts

3 The areas censused for the first time, with their population are —

Some Khamti, Singpho, Ahom and Mishmi villages, Last and North of Sadiya Frontier Tract, 11,400, Naga tribes and Ahom villages to North of Lakhimpur, 17,200, Konyak territory to North-East of Naga Hills district, 7,400

4 In columns 10, 11, 12, 13 the variations shown against the Province, British Territory and Surma Valley and Hill Division are the variations of the total population shown against them and not the sum of the variations of their districts. Both Lushai Hills and Manipur were excluded from the census of 1872, and in 1881 Manipur alone was enumerated, in 1891 the census papers of Manipur were destroyed in the insurrection, while the Lushai Hills was not censused but an estimate was formed of the population of the northern portion, which was the only part then in Assam

Note — Similar statistics for areas smaller than districts are contained in Provincial Table I, which is printed at the end of the Imperial Table

TABLE II.—VARIATION IN POPULATION SINCE 1872.

[illegible]

TABLE III

---

*TOWNS AND VILLAGES CLASSIFIED BY POPULATION.*

In this table, as in Tables I and IV, cantonments have been treated as forming part of the municipalities which they adjoin

In Cachar, Kamrup, Darrang, Nowgong, Sibsagar and Lakhimpur and in the valley of the State of Manipur the cadastral village has been taken as the village. Elsewhere it is the residential village or group of houses bearing a separate name, small outlying hamlets have been treated as parts of the main residential villages to which they appertain

TABLE IV

POPULATION OF TOWNS WITH VARIATION SINCE 1872

1 The table shows the population of all Municipalities, Unions and Cantonments, and also of certain other places (3 district headquarters and one railway centre, Lumding) which are of an urban character. These four places have been treated as towns for Census purposes under orders of the Local Government.

2 The population of the Cantonments, which has been added to that of the towns which they adjoin, is shown below —

CANTONMENT	Town with which included	Persons	Males	Females
Shillong	Shillong	1,734	815	919
Kohima	Kohima	1,086	670	416
Dibrugarh	Dibrugarh	327	160	167
Imphal	Imphal	1,174	570	604

3 The population of towns as recorded at previous enumerations has been shown where available. No adjustment of such previous figures has been made for changes of area. The following statement shows the total increase and decrease due to the changes noted —

Name of unit	Addition to the urban population due to		Decrease resulting from		Remarks
	(a) the inclusion of places in provincial limits as towns	(b) additions made to the area of towns since 1911	(c) exclusion of places previously included as towns	(d) exclusion of areas from the limits of towns	
Towns	2,011	322	—	40	

4 The places treated as towns for the first time are Palasbari, Mangaldai, North Lakhimpur, Doom-Dooma, Sadiya, Lumding, Tinsukia, and Gauripur.

TABLE VII

*AGE, SEX AND CIVIL CONDITION*

This table is divided into two parts. Part A shows the distribution, for the Province as a whole, of the total population and of each religion by age, sex and civil condition. Part B shows the distribution, for districts and Manipur State, of the total population of the main religions by age, sex and civil condition.

In Part A the age groups are as in 1911.

In Part B three new age groups have been added in accordance with the desire of the Sanitary Department in connection with the study of vital statistics. Thus group 0—5 of 1911 is now shown as 0—1 and 1—5, 20—40 becomes 20—30 and 30—40, and 40—60 of 1911 becomes 40—50 and 50—60.

Aggr, Spc and Civil Condition

TABLE VIII  
*EDUCATION BY RELIGION AND AGE*

This table, like Table VII, is divided into two parts. *Part A* shows the extent of literacy in the Province as a whole amongst the total population and for each religion returned, *Part B* gives details, for Districts and Manipur State, of the total population and of each main religion.

Columns 5 to 7 show persons literate in any language, including English. The figures for literate in English have been shown separately again in columns 11 to 13.

The following statement shows the literates among Indian Christians and other Christians separately:—

Part	Population											
	Total			Literate			Illiterate			Literate in English		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
Total	132,106	63,767	68,339	21,453	10,000	11,453	107,653	53,767	54,886	6,281	4,077	2,204
(1) Indian Christians	128,875	63,071	65,804	21,545	10,774	10,771	107,330	52,297	55,033	3,556	2,700	2,856
(2) Other Christians	3,231	1,696	1,535	908	226	682	2,323	1,471	1,852	2,725	1,377	1,348

## TABLE IX

---

EDUCATION*BY SELECTED CASTES, TRIBES OR RACES*

This table repeats the information given in Table VIII in respect of education with this difference that, whereas in that table the population is distributed by the age and religion, it is here arranged according to caste or tribe. Moreover in Table VIII the whole population is dealt with, but this table refers only to selected castes and tribes, the minor castes and tribes have been left out of account altogether, and even those selected for inclusion have been taken only for the districts where they were specially numerous. To save space, figures have been given, not for each district separately, but for groups of districts, the local conditions of which may be presumed to be fairly uniform.

It may be explained that the total district strength of a caste in this table does not necessarily tally with that in Table XIII and Table XII-A, as the latter include and exclude figures added and subtracted in the course of classification, which the present table does not.

TABLE IX.—EDUCATION BY SELECTED CASTES, TRIBES OR RACES—continued

TABLE IX—EDUCATION BY SELF-REPORTED CASTES, TRIBES OR RAJES—continued

[illegible]

TABLE X

*LANGUAGE*

In this table languages are shown alphabetically in three groups —

- |                                      |                          |
|--------------------------------------|--------------------------|
| A. Vernaculars of India              | { of Assam               |
|                                      | { of India outside Assam |
| B. Of Asiatic countries beyond India |                          |
| C. European languages                |                          |

Subject to classification of entries that do not indicate true languages, the figures are shown as actually returned.

In view of the completion of Sir George Grierson's Linguistic Survey, details of "others" have been omitted. These include minor languages and dialects and those spoken by very small numbers. They were shown in appendices in 1911.

Cross-grouping by linguistic families is shown in Chapter IX of the Report Volume.

TABLE XII

## INFIRMITIES

The Infirmities recorded at the Census were insanity, deaf-mutism, blindness and leprosy.

The Table is divided into two parts—Part I shows the distribution of the persons afflicted according to age, and Part II their distribution according to locality.

Some unfortunate persons were returned as suffering from more than one infirmity. In the Table they have been shown under each. This explains why the total afflicted in columns 2, 3 and 4 does not quite agree with the total of the figures for each separate infirmity. The following is a list of these double entries —

	Total	Males	Females
Insane and blind	2	1	1
Insane and leprosy	2	1	1
Deaf-mute and blind	15	1	14
Deaf-mute and leprosy	68	2	66
Deaf-mute and insane	2	2	0
Blind and leprosy	6	2	4
<b>Total</b>		<b>10</b>	<b>86</b>

TABLE XII-A

*INFIRMITIES BY SELECTED CASTES, TRIBES OR RACES*

The Infirmities recorded in Table XII are shown here only for selected castes in the Province. In the column for "Population dealt with" have been shown the figures of each caste or tribe after classification given in Table XIII.

TABLE XII A.—INSTANTANEOUSLY SELECTED CASTLE, TREES OR RACE

[illegible]

## TABLE XIII

*CASTE, TRIBE, RACE, OR NATIONALITY*

This Table is divided into two parts. Part A gives statistics for castes and tribes of Hindus and Animists and some Buddhists. Part B deals with Muhammmalins. The figures for Christians are omitted from this table as they are dealt with in Tables XV and XVI.

In view of the large number of memorials about caste names and titles submitted by certain communities, the Local Government passed orders to the effect that every person enumerated should have his caste recorded as he himself gave it, and all were given to understand that the designations so recorded would appear as such in the final Tables, unless they were entirely functional, so classification has been worked out as far as practicable.

In order to reduce the size of this Table, all castes comprising less than one per mille of the provincial population have been omitted, with the exception of certain frontier tribes (e.g., Khantias, Dillas, etc.) and others which have been tabulated for administrative reasons. Castes with strength recorded below the standard owing either to real diminution, or to the adoption of new caste name, are included in "Others" without any details.

Where some members of a caste or tribe profess one religion and some another separate figures have usually been given for each but if the second religion was returned only in one or two districts the figure for it have been added to the total for the main religion, and the number so added has been noted in the column of remarks.

TABLE XIV

---

*CIVIL CONDITION BY AGE FOR SELECTED CASTES*

This table, like Table IX, deals not with the whole population, but with certain selected castes in certain districts, or parts of districts, where they are especially numerous. This Table is intended to illustrate the relative prevalence of infant-marriage, etc. The strength of each caste or tribe as the same is given in Table IX and not as modified by classification for Table XIII.

TABLE XIV—Continued, by Age for Selected Castes—continued.

## TABLE XV

*CHRISTIAN POPULATION BY SECT AND RACE*

This Table corresponds with Table XVII of 1911 and shows Christians of all sects by Race. Armenians have been placed under the head "European" and added to it.

As it is intended to show Christians only the category "Indefinite Belief" (Mormons, Anacosties, etc.) of 1911 Table has been excluded from this Table and included under the head "Minor Religions" in Table VI.

TABLE XVI

EUROPEAN AND ALLIED RACES AND ANGLO-INDIANS BY AGE AND AGE GROUP

The Table corresponds with Table XVIII of 1911

In the case of Europeans and Anglo-Indians certain age groups are required for military purposes, and in the case of Anglo-Indians the Sanitary Department has decided to have the same age groups as for the general population. The original Table has been split up into two parts and rearranged so as to give the information required in each case. Part A shows Europeans and Allied Races (including Armenians), and Part B, Anglo-Indians with different age groups in each case.

In Part A, Armenians have been included under the head "Europeans and Allied Races." Their age groups are given below. —

Age Group	Male	Female
15-20		1
21-25	1	1
26-30	1	1

TABLE XVII

*OCCUPATION OR MEANS OF LIVELIHOOD*

This table corresponds with Table XV-A of 1911 and is the first of four which are intended to show statistics of occupation, the other three being Table XVIII which corresponds with XV-B of 1911 and shows subsidiary occupations of agriculturists, Table XIX (Mixed Occupations) which was optional and has not been compiled for Assam, and Table XX which shows occupation by religion as in Table XV-D of 1911.

TABLE XVII.—OCCUPATION OR MEANS OF LIVELIHOOD

TABLE XVIII.

*SUBSIDIARY OCCUPATIONS OF AGRICULTURISTS*

This table deals with the subsidiary occupations of (1) Rent-receivers, (2) Rent-payers and (3) Agricultural labourers and corresponds with Table XV-B of 1911

The term "Rent-receivers" used here is identical with group 1 (income from rent of agricultural land), "Rent-payers," with group 2 (ordinary cultivator), while "Agricultural labourers" includes groups 3 (agents, managers of landed estates, etc.), 4 (Farm servants) and 5 (Field labourers) shown in Table XVII.

Certain occupations shown in the corresponding Table of 1911, *viz*, Priests, Lawyers, etc., under Rent-receivers, Barbers, Washermen, etc., under "Rent-payers," Potters, Leather workers, etc., under "Agricultural labourers" have now been omitted owing to their numerical insignificance

TABLE XVIII.—SUBSIDIARY OCCUPATIONS OF AGRICULTURISTS—ACTUAL WORKERS ONLY

## TABLE XXI

---

*OCCUPATION.*

## BY SELECTED CASTES, TRIBES OR RACES

IN this Table statistics are given of the occupations of selected castes and races in areas where they are especially numerous or otherwise important. The occupations are arranged under 12 main heads corresponding to the sub classes of the scheme of classification adopted in Table XVII. These heads have been subdivided, where necessary, in order to distinguish between different occupations. Columns 7 to 10 are intended to throw light on the extent to which traditional caste occupations are followed, while columns 11 and 12 are designed to make it possible to discount the tendency of functional castes to return their traditional occupations as their means of livelihood. The figures in the subsequent columns are exclusive of the number shown in columns 7 and 8 as following the traditional occupation.

## TABLE XXII—INDUSTRIAL STATISTICS

---

Table XXII deals with statistics collected by a special Census of Industrial establishments employing not less than 10 persons. It does not include such industries as are carried on by members of a household in their joint interest with less than 10 hired labourers. In 1911 the scope of this special Census was limited to establishments employing 20 or more persons.

2 The table has been divided into seven parts—

Part I—Provincial Summary of Establishments classified according to (1) the strength and nature of each and (2) whether power is used or not  
This corresponds with Table XV-E, Part I, of 1911

„ II—Distribution of Industries by districts, corresponding with Table XV-L, Part II, of 1911

„ III—Classification of Establishments according to the class of managers and owners, corresponding with Parts III and IV of Table XV-E of 1911

„ IV—Caste or Race and Birth place of skilled labourers classified according to Industries

„ V—Caste or Race and Birth-place of unskilled labourers classified according to Industries

„ VI—Details of power used in Industries

„ VII—Details of looms used in the textile Industries

3 Part III has been compiled for the chief industries only, *viz*, tea, coal, oil, rice, sawmills and engineering establishments

4 Tea is the only important Industry in Assam and the distinction between the skilled and the unskilled in tea gardens is very vague and the two overlap, hence Parts IV and V have not been compiled for this Province. Provincial Tables IV, V and VI give fuller details in respect of the whole tea garden population, without distinction of skilled and unskilled

5 Part VII does not apply to Assam

In addition to those now in process in both the principal form of power used electricity is shown in Part VII.

2.—FOR ESTABLISHMENTS USING ELECTRIC POWER GENERATED ON THE PREMISES

DESCRIPTORS OF ESTABLISHMENTS	NUMBER OF ESTABLISHMENTS	PRIME MOVERS					ELECTRIC POWER		REMARKS
		STEAM	OIL	WATER	WIND	OTHER	NUMBER OF DYNAMOS	POWER IN KILOWATTS	
		Number of Engines	Horse-power	Number of Engines	Horse-power	Number of Mills	Horse-power		
		0				1		20	1
Ten		20		12				47	In Lakhimpur.
Ten about 1000-1500 Wood Factory	1	250						200	In PyOet.

In seven other gardens 9 dynamos of 30 horse power each for lighting purposes with 7.58 megawatts of the total horse-power.

## PROVINCIAL TABLE I

*AREA AND POPULATION OF THANAS, MAUZAS, ETC*

This table is an expansion of Imperial Table I. Details are given for subdivisions and thanas in the Surma Valley and Goulpara, and in the latter district the Eastern Duars are also shown. In the other Assam Valley districts, mauzas have been shown thanawari under the orders of Government. In the Hill districts, local units have been given so far as known, *viz* —manzas in the Garo Hills, Siemships, Doloships, etc., in the Khasi and Jaintia Hills and subdivisions only for the Naga and Lushai Hills. The three newly formed hill subdivisions of Manipur State appear separately, and panahs are shown for the Valley subdivision.

The total areas for Assam, British Territory and Manipur are shown as in 1911. District areas have been adjusted from those of 1911 for inter-district transfers. Those of lesser units have been obtained from the local authorities and do not necessarily agree with district areas. The two frontier tract areas have been calculated on the surveyed parts transferred from Lakhimpur and Dairang districts in 1914, but the real area of the Sadiya Tract is given by the Political Officer as about 4,200 square miles and the density has been calculated on this area.

Village Census Tables have been supplied to all districts and to Manipur. Ten copies of these were printed for Nowgong and Sibsagar. In all other cases, owing to want of funds, a single manuscript copy only has been prepared.

PROVINCIAL TABLE I.—AREA AND POPULATION OF THAMES MOUNTAIN, ETC.

## PROVINCIAL TABLE II

---

### *POPULATION OF THANAS, ETC., BY RELIGION AND EDUCATION*

In this table thanas have been shown except in the hill districts and Manipur State. In the hills, subdivisions have been given with the exception of the Garo Hills where mauzas have been shown, in Manipur figures for the Valley section have been given by panahs and those for the Hill Section by subdivisions.

Literate in columns 12 and 13 shows persons "literate" in any language including English. The figures for "literate in English" have been shown again separately in columns 14 and 15.

The figures for "literate" and "literate in English" in minor divisions include all religions, as do the district figures. They cannot be compared fairly with those for 1911 when Christians, Buddhists and others were omitted from the minor divisions.

Village Census Tables, separately compiled and supplied to each District Officer and the Manipur State, shows the population of villages by religion.

## PROVINCIAL TABLE III.

## OCCUPATIONS OF PERSONS LITERATE IN ENGLISH

This Table corresponds with Provincial Table VI of 1911 and follows the headings of Imperial Table XXI

PROVINCIAL TABLE IV

---

*EASTERN BENGAL IMMIGRANTS BY AGE, RELIGION AND  
OCCUPATIONS*

This table is intended to show the influx of Hindu and Muhammadan colonists to the Assam Valley (excluding Garo Hills) from certain districts of Bengal. Other religions have not been shown owing to their numerical insignificance.

In order to distinguish the land settlers from others, such as clerks and traders, the occupations have been shown separately for cultivators and others.

# PROVINCIAL TABLE IV.—IMMIGRATION TO THE ASSAM VALLEY FROM CERTAIN DISTRICTS OF BENGAL—Contd

## PROVINCIAL TABLE V

*STATISTICS OF COTTAGE AND RURAL INDUSTRIES BY DISTRICTS*

These statistics have been collected for the first time at the Census of 1921. Manipur was excluded from the scope of this enquiry under the orders of the Local Government.

## PROVINCIAL TABLE VI

## TEA GARDEN POPULATION BY AGE, SEX AND CIVIL CONDITION

This table is confined to the tea gardens of the Sibsagar District only and is intended to throw light on the effect of tea garden immigration on the age distribution of the total population of the Province. Sibsagar being a typical tea-district has been selected for the purpose.

The column, Column 12, contains the percentage of literate males in the population of the Province, and is calculated as follows:

The figures shown in this table are based on the results of the census taken in the year 1901. The figures are not corrected for the error in the census.

## PROVINCIAL TABLE VIII

---

*TEA GARDEN POPULATION BY LANGUAGE*

THIS table is confined to the tea garden population alone and corresponds with Provincial Table III of 1911. It follows the scheme of classification adopted in Imperial Table X.

## PROVINCIAL TABLE X

*TEA-GARDEN POPULATION BY CASTE*

THIS Table corresponds with Provincial Table V of 1911 and shows separately only the important castes of the tea-garden population, in accordance with the principle adopted in Imperial Table XIII

It is divided into parts, A—Hindus and Animists, and B—Musalmans

The total does not agree with that shown in the other tea-garden tables.

PROVINCIAL TABLE X—TEA-GARDEN POPULATION BY CASTE PART B.—MUSALMANS

Province or District	JOLAHA						MAHIMAL				MUSALMAN (UNSPECIFIED)				PATHAN		SAIAD (SYED)				SHEIKH		OTHERS
